Coutrilas House Hereford
Feb 4 1852

My dear Gray

I received some time back your letter of the 5th Jany but was in the midst of Spruce's distribution and thought I would wait till I could either give you an account of that or announce to you the arrival of the box you so kindly send I have now at length finished this tedious task and sent off the packages last Saturday I have however kept yours as I find I have no memoranda how to send it to you. Perhaps I had better make up a little box and send it to Brown and Rigby at Liverpool to forward to you I will put in at the same time the notes on Tenore's Chagres plants with the names of such as I have been able to determine

The small parcel Torrey sent me through Hooker reached me just before your last surprised visit when we looked it through together I will return the few Liverpools also in your box. — with the two sheets wanting of Lambert Hartwegianus.

I have advice of the box you send being despatched from Liverpool — Many thanks for the paper which with the duty will and carriage will only come to one third of what I pay for paper for covers here — Then two reams will last me a long time but as you do so kindly offer them I shall be most thankful for a further supply by your bye and should be a great fool if I grudged the duty I have not received the box yet but shall probably by Saturday next

Your set of Spruce's Amazon plants contains 286 species amounting to £ 5..14-6

You recollect giving me a commission to get for you from Italy Bertoloni's Miscellanea Botanica in which he

publishes Texan or Alabama plants. I have executed it though I am afraid you will think it almost as bad as the commission I gave you per the Flora Abyssinica — There are ten 4to parts with many of the plates coloured for which I am charged including duty etc £ but as there is so much about American plants in the work if you do not take it yourself you will I have no doubt find some one to take it off your hands - for it is not easy to get books published at Bologna and not the property of a Bookseller

Yours very truly
George Bentham
